Create assignment

Indonesia is an island nation, located in Southeast Asia and Oceania between the Indian and Pacific oceans (**Figure 1**). It is the world's largest island country (there are over 6000 inhabited islands) and the fourteenth largest overall by area. It also has the fourth largest population in the world.

🔗 **Making connections**

Rural-to-urban migration is also a major reason why cities are growing so rapidly with more and more people leaving the countryside to the city. This will be explored further in subtopic 1.7.

1.6 Urban settlements

Case study: Berlin, Germany

Create assignment

Berlin is a city of over 3.5 million people and is the capital of Germany. It is built on the banks of the Spree river and is surrounded by the flat land of the Northern European Plain. Berlin has flourished into a city known globally for its cultural offerings, entertainment opportunities, and high standards of living. However like all major cities, Berlin has major conflicts that provoke much debate among its residents.

Reflective Learners...

Develop the awareness and strategies to become lifelong learners.

Responsible Learners...

Take charge of their own learning while collaborating with others and respecting different points of view.

Innovative Learners...

Persevere through new challenges and show tenacity and innovation in the face of uncertainty.

Confident Learners...

Incorporate critical thinking and problem solving skills to explore the big ideas, history and real world application of Geography.
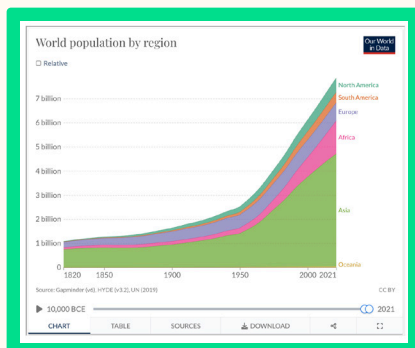

Engaged Learners...

Are intellectually curious and use their passion for knowledge to positively impact the world on a local, national and global level.
